Luma (Super Mario) – knit flat, seamed

Stitches used in this pattern (none of the tutorials linked are mine!):

Cast on [link to tutorial]
K (knit) [link to tutorial]
P (purl) [link to tutorial]
KFB (knit front and back – left leaning increase, used at the start of the row) [link to tutorial]
M1 (make 1 – right leaning increase, used at the end of the row) [link to tutorial]
SSK (slip slip knit – left leaning decrease, used at the start of the row) [link to tutorial]
K2T (knit 2 together – right leaning decrease, used at the end of the row) [link to tutorial]
Drawstring cast off (method of casting off) [link to tutorial]
Slip stitches onto a stitch holder [link to tutorial]
[instruction] - repeat instruction
[instruction][number] – do the instruction the specified number of times only

---

Needed for this pattern: base colour yarn (main body, arms), black yarn (eyes), white yarn (eyes), stuffing, sewing/darning needle

For this pattern, I used 3.75mm needles and DK yarn. Height of project – 20.5cm, width of project – 21.5cm.
Gauge: 10cm x 10cm = 30 stitches x 37 rows

Main body (base colour yarn) (make 2):

Row number	Instruction	Additional comment
	Cast on 8 stitches

65	*P*	
66	K1, SSK, K2T, K1	1 decrease at the start of the row, 1 decrease at the end of the row (4 stitches)
67	Cast off	

The image below is how your project should look immediately after slipping the stitches onto a stitch holder. I've used a safety/kilt pin, but I recommend using something larger that can comfortably hold all the stitches to make it easier to slip back onto the needle for the next part.

The image below shows how your project should look after slipping the stitches back onto your needle. This starts with the knit row, and you will immediately be casting off on this row, so make sure your working yarn is secure.

Construction:

Use duplicate stitch on the bottom right of the eye using white yarn. This is done on the bottom right for the directionality of the duplicate stitch, and when we rotate it to the proper alignment so the duplicate stitch sits on the top left, it is pointing upwards.

Original credit: cryptious on ravelry and ko-fi. Please don't republish elsewhere without my consent! If found elsewhere, this content should be free of charge.

Pin the eyes into place onto the main body and seam them on with mattress stitch.

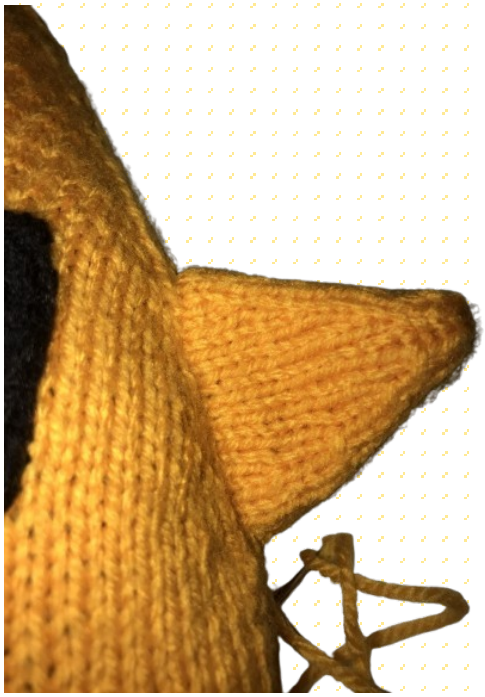
Pin the two halves of the main body together, and begin seaming the outside with mattress stitch until you reach the bottom of the legs, leaving a small hole for stuffing.

Original credit: cryptious on ravelry and ko-fi. Please don't republish elsewhere without my consent! If found elsewhere, this content should be free of charge.

Fold the arms and pin them together and seam them up.

Then, pin them into place on the stuffed main body and seam half of it on.

Original credit: cryptious on ravelry and ko-fi. Please don't republish elsewhere without my consent! If found elsewhere, this content should be free of charge.



After that part has been seamed, you can add the stuffing to the inside of the arms, then seam the rest of the base onto the main body, then weave in the ends when done.

You now have your very own luma! (Ability to travel freely through galaxies not included.)
